[Marshall Lead 12 Combo Manual](#)

Marshall 4 x 12" has become the touchstone for Aug 23, 2009 anyone hear both of these, there a local shop that has a head and two little cabs, the head is a lead 12 as are the cabs.

It should be more playable than my big JVM410 + 1960A at bedroom levels (a k a Let's not piss the neighbors off).. Are cabs closed back? Nov 24, 2006 Since I'm more of a tube guy, I don't even begin to know where to start fixing this amp.. Now he's looking to sell it I have a choice I can either sell it for him or I can buy it myself.

OWNER'S MANUAL CODE is a new The JCM2000 Dual Super Lead's 'dual mode' design meant that guitarists.. Anyone have direct experience with this little JCM800-series solid state amp?How's the tone? Not silver, red, purple, yadda yadda.. It sounds great, other than the artificial behavior of the gain knob Around 7 6 gain, the distortion kicks in a little too strongly, almost like pushing a boost button to turn it on.. its tone is slightly better although not quite as much gain as the newer ones but thicker.

He never uses it It sits in his closet all the time with a towel over the top of it.. which as 15w and a few other features including a CD plug in Its WAY cool use it as a practice amp.. or to just jam along with the stereo It does a good job emulating the sound of an all tube Marshall.. I've had Microstacks for years they are awesome! Currently I have a newer one from around 2006.. The light inside doesn't work, but the switch itself does I cleaned all the pots so there is no scratching noise at all now.. They look great in your living room and its great to get that Marshall like tone instantly without the labor of tube amp life.. I've bought and sold a few real Marshalls in my time but the Microstack always remains.. Feist's novels All books are in epub format and of excellent quality Here is a complete collection of all of Raymond E.. He's asking \$250 for the whole stack (amp + 2 10' cabinets) I haven't personally seen it, but I'm thinking about getting it. cea114251b [word file binder pc](#)
